GIVE YOUR FUTURE SELF A RAISE

Getting a raise is a good thing. But what about life after you've called it a career? Wouldn't it be nice to have a bigger “check” then, too? You can help make that happen when you increase your contributions to the San Francisco Deferred Compensation Plan (SFDCP). And there's no easier time to do that than when you get a pay increase!

See What Just 3% More Can Do

Assumptions: \$65,000 annual salary, compares contribution rate of 6% versus 9% annually, 7% rate of return, invests from age 40 to age 65, contributions for 25 years at the beginning of the year. The compounding concept is hypothetical and for illustrative purposes only, and is not intended to represent the performance of any specific investment, which may fluctuate.
